GENERAL INFO:

- Mods highlighted in blue color require Script Hook by AB
- Mods highlighted in red color require Lenny's Mod Manager
- Mod highlighted in grape color require **BOTH** **Script Hook** **AND** **Lenny's Mod Manager**
- I have two separate lists: one for standard playthrough and one Undead Nightmares II

THIS IS NOT A MODDING GUIDE!!!

This list will have no value to you if you don't know how to install RDR2 singleplayer mods.

You must use Vulkan API to run the game if you want to use 4K texture mods.

(setting available in-game under: *Graphics → Rendering API*)
